

Are you looking for a way to enhance and advance your career in an intensive fast-tracked format?

Are you ready for the time you invest in professional development to have real meaning for your students?

Are you looking for an opportunity that can change your classroom?

Are you looking for a way to learn with and from other practicing teachers?

### If you said yes to any of these questions, this is the summer offering for you!

By YOUR request, SMSU is excited to announce a core of graduate classes for summer 2012 (May 21<sup>st</sup>-July 20<sup>th</sup>). Take one or take them all.

**AE 502: Research in Action, 1 Credit** ----*must register for this course by 4/28*

**AE 553: Brain-Based Teaching & Learning, 3 Credits**

**AE 555: Content Applications & Curriculum Development, 3 Credits**

**AE 557: Differentiated Instruction & Assessment, 3 Credits**

Unique in this graduate offering is that it is summer-intensive and based on a fast-paced, fast-tracked spiraling curriculum. Students completing the course will

- Explore state-wide teacher research and what it can mean for their classroom
- Adapt lessons to implement brain strategies that can activate learning for all students
- Discover simple ways to differentiate instruction without rewriting their entire curriculum
- Use their professional practice as a living laboratory and drive the content with their curriculum

These courses will be offered through a unique blended format that combines independent learning, community learning, online interaction and classroom application. This flexible formula will maximize learning for the busy professional educator.

Limited Space Available...[Enroll today!](#) **Registration Deadline: May 18<sup>th</sup>**
